

### **Section 1. Individual Eligibility**

All MAPGA Members and Apprentices with or without playing privileges are eligible to compete for the Hole-in-One Bonus Pool. There is an entry fee of \$25 per season.

### **Section 2. Tournament Eligibility**

All MAPGA Section Tournaments and each of the three Chapter Championships qualify for the Hole-In-One Bonus Pool, provided the hole in one occurred during the Official Tournament Season.

### **Section 3. Verification of Hole-In-One**

In an individual stroke play event, the MAPGA Professional making the hole-in-one must record a score for every hole in the stipulated round. In a match play competition (individual or team), all holes-in-one will be considered valid if they were made while the player (or team) had not been closed out. In team competition (stroke or match, including scrambles), all holes-in-one will be considered valid if they were made while the player had not been disqualified for that hole. Score cards of MAPGA Professionals making holes-in-one must be turned in to a member of the competition committee and forwarded to the MAPGA Tournament Director for validation. It does not matter from which set of tees the MAPGA Professional made the hole in one. The MAPGA Professional must be in the Hole in One Pool before the hole in one is made.

### **Section 4. Hole-In-One Prizes**

The Hole-In-One Bonus Pool will be funded through the collection of entry fees from eligible participants. All eligible hole-in-ones will split the total funds of the pool for the season. If there is only one winner, he/she would receive all funds in the pool. If there is no hole-in-one during the Official Tournament Season, all funds will be carried over to the next season. Anyone wishing to be in next season's pool must pay another entry fee during the next Official Tournament Season.

Payment for any holes-in-one will be made after the completion of the Official Tournament Season, but not later than

December 31st.
